The annual meeting of the Second company, Governor's Foot Guard, will be held in the armory on Friday evening, January 25.

Miss Isabella Cromwell of this city was in Meriden yesterday arranging for new classes for the study of current events, to be opened about the last of February.

The lecture by Prof. Sanders of Yale university in the Sunday school room of the North church, Middletown, last evening was an entertaining and profitable one. His subject was "Early Oriental Civilization."

Bradstreet reports that commercial and financial features indicate only an extension of improvement heretofore noted. There is an increased number of industrial employees at work, compared with the number one year ago, but the rates of compensation have not advanced.

## AFFECTS MANY NEW HAVENERS.

Failure of the Bankers' Loan and Investment Company of New York.

James M. Sifford and Charles B. Hillhouse were appointed receivers of the Bankers' Loan and Investment company of New York by Judge Bookstaver last Thursday afternoon upon application of Attorney General Hancock of the state of New York. The application was made as the result of the recent investigation by Charles M. Preston, superintendent of the bank, who reported an apparent deficit of \$151,000. It is conservatively estimated that about \$350,000 worth of the company's stock is held in this city, and one well known Chapel street merchant is reported to hold a block of \$20,000 worth.

A large amount of the installment certificates are held by workmen and women, who can ill afford to lose their savings. Mr. John A. Richardson was at one time vice president of the company and is still a member of the board of directors. Ex-Councilman Clarence W. Clark of this city is the company's secretary and was for several years its state agent.

Deputy Attorney General Hasbrouck, through whom the application for the appointment of a receiver was made, places the company's assets at \$427,163 and the liabilities at \$578,570.

The company is only four years old, having been organized in 1890 for the purpose of lending money on real estate in the south and west. The liabilities consist of full paid stock to the amount of \$483,800, installment stock \$90,700, bills payable and accrued interest \$9,250, loan certificates \$17,442, due individuals \$4,697, taxes and rent \$2,732. The assets consist of loans on bonds and mortgages \$344,800, real estate \$80,000, cash \$1,125, insurance advanced \$1,238; total \$427,163. The board of directors are C. B. Hillhouse, John A. Richardson, T. C. Hillhouse, Christian Devries, Clarence W. Clark, John C. Ten Eyck, D. M. Gerould, George A. Craig and H. F. Royce.

## BLAZE IN WEST HAVEN.

The Former Bishop Pole Factory Burned—Owned by the Consolidated Road.

The factory in West Haven formerly the Bishop Pole factory, and sold by S. H. Bishop of West Haven to the Consolidated road about a year ago, caught fire yesterday noon and the main building, which was of wood, was destroyed. An addition of brick was saved. In it was a carriage belonging to Mr. Clarence E. Thompson, the broker, whose office is on Orange street, this city. The carriage was saved and other property in the brick part. The Consolidated road bought the property, needing its site owing to the four-tracking of the road, the building being close to the tracks. They were near the West Haven depot. Grandis & Russell, manufacturers of carriages, were temporarily occupying the building.

The fire is supposed to be of incendiary origin, though one report lays it to spontaneous combustion.

Henry Porter was going to his dinner when he discovered the flames coming out of the second story of the building. He gave the alarm. Before the firemen arrived on the scene the flames had spread so rapidly that all chance of saving the wooden building was abandoned and it was burned to the ground. There were two horses in the blacksmith shop of the building; they ran out themselves and were saved. The contents of the office including books, etc., were saved, but aside from this the contents, which amounted to little, were lost. The members of the firm are the only ones employed about the building and had gone to their dinner, the building at the time being left alone. It is supposed that some one secured an entrance to the building and set it on fire. There is no clue to the perpetrator. During the fire the flames were so intense that the telephone wires which ran in front of the building were burned out and communication to the west was cut off for the afternoon. The firemen succeeded in saving a dwelling and two barns adjoining the burned building, which were threatened and once or twice caught fire. The loss to the firm will amount to about \$100, and the loss to the railroad company on the building is placed at about \$500.

Mr. S. H. Bishop manufactured extension poles in the building for years. His son, Fred Bishop, now of Los Angeles, Cal., was with him in the business.
